About SERKEM

We are an international service company in the SAP environment since 1997.

As a SAP system house, we start projects with process analysis and consulting. We then support our customers with implementation, process optimization and installation. Training, support and IT outsourcing of SAP systems complete our range of services.

More than 80 employees look after our more than 300 customers nationally and abroad. Our focus is on logistics organization (SAP ERP). In addition, we also cover the commercial and human resources areas in depth in SAP.

Your career start in the SAP world at SERKEM

At SERKEM you work together in teams for projects with international customers right from the start.

Responsibility and varied tasks challenge you every day and support your further development. An experienced mentor is always at your side, both professionally and personally.

As an employee at SERKEM you work in the project business. Nevertheless, we plan circumspect so that private life remains plannable. That's the key that our employees can spend most of their working hours at one of our facilities.

Working at SERKEM at a glance:

- Interesting, varied and secure job with challenging projects
- Flat hierarchies and short decision paths
- Informal corporate culture
- Permanent employment
- Regulated working hours
- Vehicles for company trips
- Extensive training opportunities

- Senior Consultant Logistics (m/f)
- Senior Consultant Finance & Controlling (m/f)
- Senior HR Advisor

Get a picture of us:

We take responsibility for our employees, our customers and our region. We focus on sustainability in all sectors.

Regional rooted - efficient worldwide

As the region's largest provider of jobs in the field of SAP consulting, we offer people from the region secure jobs. And from here we go all over the world for our customers.

Economic Independence

Solidarity, consistency, long-term orientation and loyalty are important to us - and our independence from third parties is the basis. That is why we are fully self-financed and do not use any economic development.

Teamwork as a success factor

We carry out projects in permanent teams. These are managed by consultants with many years of cross-industry experience. This is how we ensure the highest quality and constant further development of our employees.
